Social Thinking Webinar

Sharing an Imagination: #10 in Our *10 Concepts Series*

In this webinar, Social Thinking founder Michelle Garcia Winner explored how the concept *sharing an imagination* is a critical part of teamwork, creating new things, reading comprehension, peer play, social conversation, and more! Michelle explained the definition of *sharing an imagination*, how all nine Social Thinking concepts taught in this webinar series lead to it, and how this concept is critical (and, we think, uniquely suited) to helping individuals of all ages develop social competencies. Products developed by Social Thinking to help teach this concept were reviewed to guide interventionists in extending their own as well as their students' learning.

- 90 minutes, or 1.5 contact hours, of instruction
- Original webinar took place May 7, 2019; the recording is available to be watched any time at www.socialthinking.com/webinars
