Social Thinking Webinar

Thinking with Your Eyes: #2 in Our Series of 10 Core Concepts

In this webinar, Social Thinking founder Michelle Garcia Winner provided examples of how to teach *thinking with your eyes* across age groups, all the way into adulthood, and shared which Social Thinking products offer lessons and activities to expand your teaching of this concept. She also explored how digital devices can stifle the development of social competencies and how to motivate students to use their social attention when in the presence of others.

- 90 minutes, or 1.5 contact hours, of instruction
- Original webinar took place Sept 18, 2018, recording is available to be watched at any time at www.socialthinking.com/webinars

Participant

A handwritten signature in black ink, appearing to read "Heidi Winner".
